

A photograph of four students standing in a virtual reality environment. They are all wearing blue lanyards and holding tablets. The background is a colorful, abstract digital landscape with yellow and orange shapes. The overall image has a light blue overlay.

Digital Education Support at Andover College

DigiEd Team at Andover College

Supporting learners and staff to use technology with confidence in a meaningful way to enhance the teaching and learning experience.

Innovation spaces

Dedicated spaces for learners and staff to be creative, make mistakes, learn new skills, and build confidence.

DigiHub

Immersive Suite

Immersive Suite

VR without the headsets

Learning through
simulated experiences

A space to spark
creativity and bring
learning to life

Bespoke scenes created
by dedicated
technologists

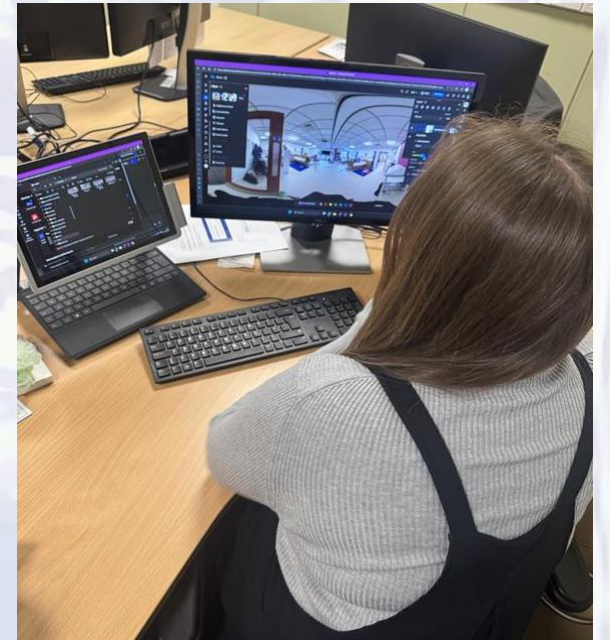

Bespoke scenes created by dedicated technologists

Health and Safety scenes – replicating hazardous working environments

Simulation scenes – scenario-based lessons

Wellbeing scenes – time to reset after content-heavy lessons

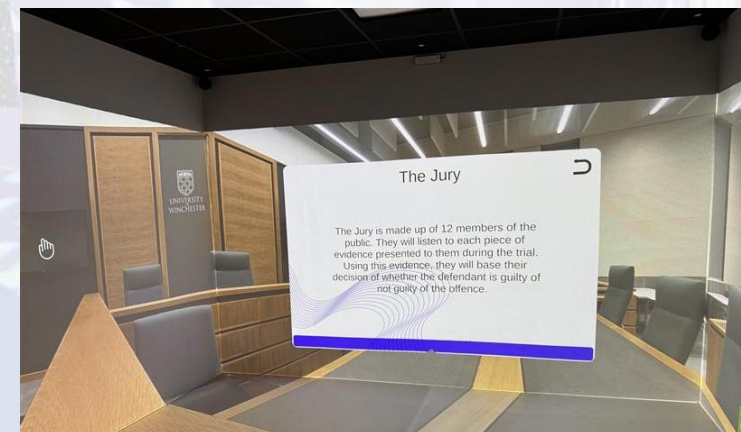

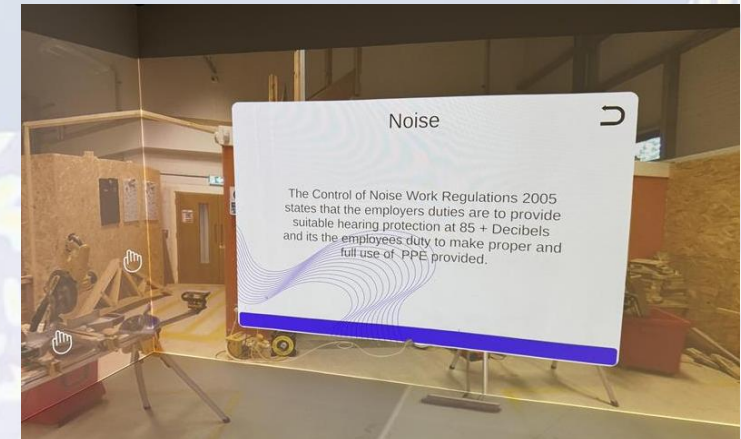

Impactful scenarios to strengthen knowledge

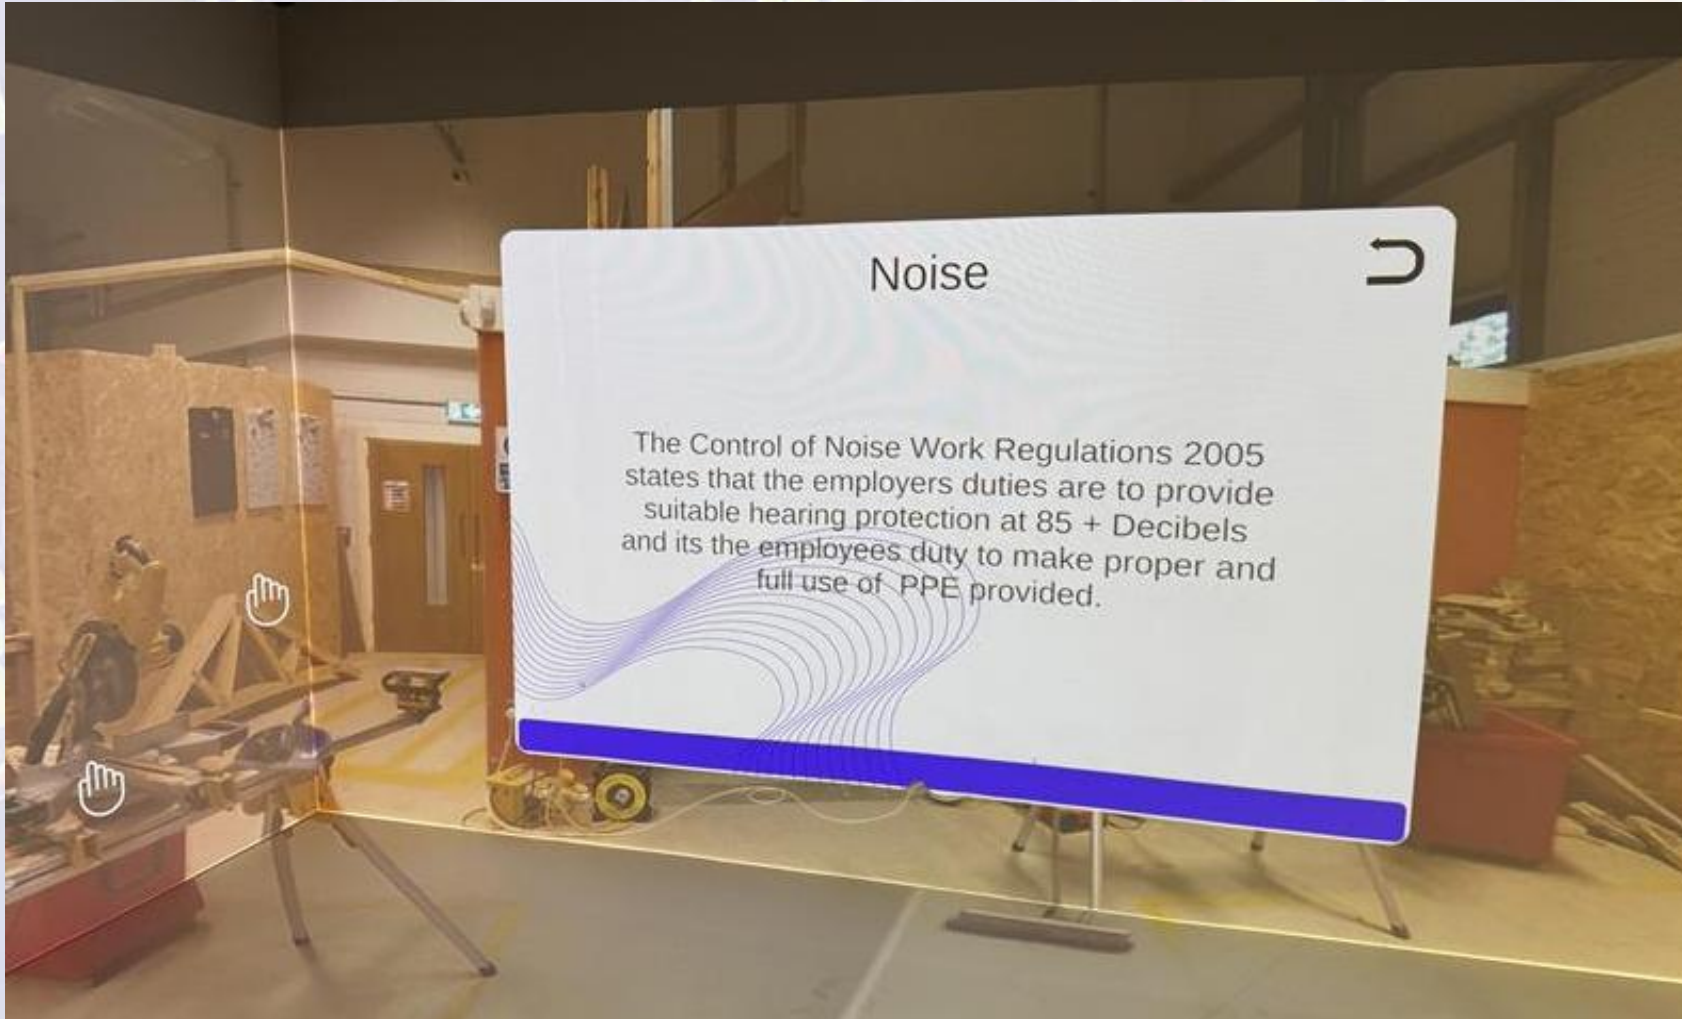

Learners interact with the scene via hotspots.

Includes text, images and videos in pop-up boxes.

Used for introducing new topics, embedding knowledge, and revision.

Impactful scenarios to strengthen knowledge

Next steps: working with local businesses to build employability skills using technology

- ❑ Initial discussion with Andover College DigiEd Team and Lecturers, discussing how to create a bespoke immersive scene with your organisation
- ❑ Andover College DigiEd Team visits your organisation to capture images and videos
- ❑ Your organisation provides information to create hotspots and interactive content via a Teams call or in-person meeting
- ❑ Andover College DigiEd Team finalises scene
- ❑ Lecturers deliver personalised lessons using your scene
